F U C K A B I O

A zine full of haikus compiled out of found language. Each phrase is taken directly from Brooklyn or NYC located, male identifying Tinder profile biographies. Drawn, scanned then manipulated online, each illustrated profile picture mimics the image from which it came from. With a mix of self-promotion and validation, drawing attention to volvic and phallic symbols, each man alludes to sex and his character as compromisable.

A B O U T T H E A R T I S T

I am graduating from Pratt Institute with a major in painting and a minor in cultural studies. My art is in reaction to culture, news, politics, as well as a reflection of how I think and feel. Each of my pieces attempts to take a visceral hold on society.
